Report of the Fire Department

The Department is very happy to report that the town has had only three fires in the past year. This is the lowest number on record since the department was organized.

1 vehicle
1 house
1 oil stove

Through the courtesy of the Thomaston Fire Department, we have received two-way radios that have been installed in our trucks. We now have communication between our trucks and the Thomaston Department.

Purchases this year have been 100 feet of 1½" hose and 100 feet of 2½" hose. The fire extinguishers have been filled and checked, plus necessary tools added.

The Department wishes to thank all who helped during the past year.

Respectfully submitted,

REYNOLD ANDERSON,
Chief
Cushing Volunteer Fire Dept.

Harbormaster's Report

I wish to thank the voters of the Town of Cushing, in the passing of the basic Marine Ordinance at the Town Meeting last year. This has and will in the future, greatly facilitate and assist the Harbor Master in the justifiable performance of his duties.

Incidentally, this ordinance was devised through the examination of other existing town ordinances, suggestions from the bureau of watercraft in Augusta, and legal aspects from existing State Statutes.

Have been arbitrator on two mooring disputes this past year. Have received 18 calls from the Coast Guard concerning lost and/or overdue boats.

In discussing the matter with the Coast Guard, it would ease and speed their work if requests and/or correspondence with them were done through this office. Also they would know who to contact immediately with a reply.

Thank you for your continuing cooperation.

For assistance or emergency, call — 354-2380.

Respectfully submitted,

ROLAND B. STIMPSON
Harbormaster

Maine Department of Health and Welfare
Division of Public Health Nursing, Bureau of Health

Public Health Nursing Services

Your public health nurse, a member of the Division of Public Health Nursing, Department of Health and Welfare, submits a report of the services given by her this year.

She worked with all age groups in their homes, in school and pre-school child health conferences.

She made thirty-two visits to people in their homes, for a variety of conditions requiring nursing care or health supervision. She assisted families by guiding them to proper resources for care. She received referrals for these visits from families, physicians and as a result of findings in the school health program.

Regional child health conferences continue to be held on a monthly basis in Thomaston. Fifteen Cushing children received physical examinations, immunizations and counselling on growth and development given by Alta Ashley, M.D., and your public health nurse.

Your public health nurse worked with the school personnel and the school physician, Dorothy Waterman, M.D., in administrating the following school health services:

- A. Audio and Visual Screening Tests to All Children
- B. Tuberculin Tests for Children in Kindergarten and School Personnel
- C. Physical Examinations for Children in Kindergarten and Grade Four
- D. Immunizations to All Children when Necessary

Parental permission was obtained as needed. Your nurse conferred with school personnel regarding individual students and their problems.

The following table summarizes the immunizations completed in the various programs.

Type of Immunization	Number of Children Immunized
TriValent Oral Polio	16
Diphtheria-Pertussus-Tetanus	8
Measles	5
Diphtheria-Tetanus	4
Smallpox	3

Your public health nurse appreciates the cooperation of the citizens of the community.

Respectfully submitted,

GEORGIA L. GENTHNER, R.N.

Mid-Coast Mental Health Clinic

Chairman, Board of Selectmen
Town of Cushing, Maine

Dear Sir:

During the last 12-month period, the Mid-Coast Mental Health Clinic handled a total of 253 cases in Knox, Lincoln, and Waldo counties. We saw about 2 adults to every child this past year, and our coverage extended to individuals and families in 34 different towns in our service area.

At the Mid-Coast Mental Health Clinic, a patient pays according to his ability to pay and, in practice, this means our fees cover only a small percentage of our expenses. We need the help of each town in our area to continue our present services on this basis.

Some service has been rendered individuals in your town and we are asking you to consider an appropriation of \$50 for the Clinic at your annual meeting and request that an article to this effect be placed in your town warrant.

If you would like additional information about the Clinic, a member of the Board of Directors will be glad to meet with you at your request.

We look forward to your support.

Sincerely,

MID-COAST MENTAL HEALTH ASS'N, INC.

John J. McAuliffe, President

Mid-Coast Home Health Agency

First Selectman
Town of Cushing, Maine

Dear Sir:

Once again, the Mid-Coast Home Health Agency requests financial support from the citizens of Cushing.

During 1970 nurses employed by our agency made 19 visits to patients living in Cushing. Many of these were to individuals covered by Medicare. Recently, however, the Social Security Administration has become most rigid in its requirements and has denied payment for some visits which we have been making to patients covered by Medicare.

Also, as doctors realize the value of our services, we are making more visits to patients in the younger age group who are not covered under Medicare or private insurances. In such cases, your Town will be informed about the expenditures made by Mid-Coast Home Health Agency for the support of your Town's poor and needy.

Continued support of our Agency's work in the form of Town meeting appropriations and otherwise will be greatly appreciated.

Sincerely yours,

JOHAN BROUWER, M.D.
President-Medical Director

Harbormaster's Report

This past year has been taken up with the usual and unusual duties as they come along. There have been inquiries concerning lost craft reported to me, accepted at any hour; calls from the Coast Guard of lost or overdue boats; the replacement of sturdier in-harbor ledge markers and guide signs. I also helped in the futile rescue attempt of a stranded whale in the Harbor, and the eventual disposition of the mammal after expiration.

Please adhere to the Marine Ordinances of the Town of Cushing. All complaints should be filed with this office.

Respectfully submitted,
ROLAND STIMPSON
Harbormaster

MAINE STATE DEPARTMENT OF HEALTH AND WELFARE

Mid-Coast Mental Health Clinic

Chairman, Board of Selectmen
Town of Cushing, Maine

Dear Sir:

The Mid-Coast Mental Health Clinic continues to find more evidence of nervous problems, family breakdown, alcoholism, drug problems, and other emotional disturbances that require professional treatment. Whereas our staff last year included 1 part-time psychiatrist, 1 part-time psychologist and 3 social workers; we are happy to report that, due to increased help from the towns and contributions from the State, we have increased our staff by 1 part-time psychiatrist, 1 psychologist, and 1 social worker. Consequently we have been able to increase the number of people seen as follows:

	1970	1971
Patients	2011	2216
Visits	1568	1956

Our Clinic serves the large mid-coast area, within Knox, Waldo, and Lincoln counties. We have offices in Rockland and Belfast and hope to open new offices within the year to bring our services still closer to the people who need them. Already, through special grants from Belfast and Searsport, regular consultation programs have been established in those schools. All other towns are accorded these services to the degree possible, but we hope to provide a more formalized program to as many other towns as possible.

There are other services too: educational programs, conferences, and seminars to groups within the community regarding mental health. We have recently completed a five-week seminar for all clergymen in the area.

The Clinic is supported by local funds, State funds, and fees from patients. Since the fees are based upon the individual's ability to pay, and no one is denied service this latter source constitutes less than 5 percent of our income.

You should be keenly aware of the importance of local funds and the necessity of increasing them if we are to continue to meet

the increasing mental health needs of the region. We know that the State and Federal Governments will financially support us only if the local communities approve of our program and contribute financially to it. Every dollar contributed from the towns' budgets can be matched by three additional dollars from governmental sources.

JOHN J. McAULIFFE, President
Mid-Coast Mental Health Association, Inc.
RONALD K. MELENDY, Executive Director
Mid-Coast Mental Health Clinic

Knox County Regional Planning Commission

During the year 1971 Knox County Regional Planning Commission realized the fulfillment of several goals as well as making encouraging progress toward an expanded program of greater community involvement.

Due to increased interest in and awareness of the need for planning throughout the region, a strong Public Relations (Improvement) Program was initiated. This combined with personal contact, good media coverage and attendance at local meetings, brought three full and two associate members to the commission this year. This provides a total of ten towns belonging and participating in the overall planning needs of the area.

Projects which especially concerned the commission included the completion of a five-year Overall Program Design early in 1971. Implementation of this design can be resolved on the local level through the realization that this is a regional responsibility. Herein lies the greatest possible contribution the Knox County Regional Planning Commission can make to the community.

Knox County Regional Planning Commission has continued its cooperation and assistance in the work of the Maine Law Enforcement Planning and Assistance Agency with encouraging results.

An active Citizen Participation Committee was formed by the commission last fall. This group is well under way in an effort to bring planning knowledge and information to a wide range of groups and organizations throughout the county.

With a full year of progress in 1971 and a healthy view toward even greater cooperation with all the towns in 1972, the coming year looks busy and encouraging.

Knox County Regional Planning Commission will maintain its efforts to inspire community leadership to develop aggressive improvement programs and through its own efforts to keep high standards of interest and resourcefulness.

RAYMOND D. SMITH
Chairman

Auditor's Report

February 23, 1972

The Board of Selectmen
Cushing, Maine

Dear Sirs,

I have examined the balance sheet of the Town of Cushing as of January 15, 1972, and the related statement of operations for the year then ended. My examination was made in accordance with generally accepted auditing standards.

In my opinion, the accompanying balance sheets and statement of operations present fairly the financial position of the Town of Cushing as of January 15, 1972, and the results of operations for the year then ended.

Very truly yours,
RONALD J. RAYER

MID-COAST MENTAL HEALTH CLINIC

The Mid-Coast Mental Health Clinic continues to increase the quantity and quality of mental health services to the Midcoast Region as every year goes by. We find more and more evidence of nervous problems, family breakdown, alcoholism, drug problems, and other emotional disturbances that require professional evaluation and treatment.

Geographically, the Clinic serves all of Knox County, Seventy (70%) percent of Waldo County, and two communities in Lincoln County. As a result of small increases in our funds we have been able to open a new office in Waldoboro to serve residents in the southern part of our region. Our other offices are in Belfast, Rockland, and at the Health & Welfare Department in Rockland.

We provide various types of services to all people regardless of age, and as a result of special agreements with the schools, we provide mental health consultation services to the school district in Rockland and Searsport. Other school districts are accorded these services to the degree possible, and we hope to establish agreements setting up more formalized programs in as many school districts as possible.

Other services include educational programs, workshops, and seminars to groups within the community. As an example we have recently completed a twelve week seminar on mental health for all clergymen in the area. We also conducted a one-day workshop in September of all Junior High teachers in SAD #5.

Our staff includes psychiatrists, psychologists, and psychiatric social workers, and has increased to twelve professional and four clerical staff.

The Clinic is supported by local funds, State funds, and fees from patients. Since fees are based upon the individual's ability to pay, they total less than 5% of our income; and no one is denied service because of inability to pay a fee.

We would like to emphasize to you the importance of local funds and the necessity of increasing them if we are to continue to meet the increasing mental health needs of the Region. We know that the State and Federal Governments will financially

support us only if the local communities approve of our program and contribute financially to it. Every dollar contributed from the town's budgets can be matched by three additional dollars from governmental sources. We are increasing our requests from some communities due to the increased demand for service and increasing costs. The Maine Municipal Association supports the use of Revenue Sharing funds for health and social services; and we realize that some communities have been able to allocate some of these funds for health and social service programs.

HARBORMASTER'S REPORT

The usual duties have been carried out — maintenance of signs and markers, repairing, bracing, painting, etc.

Have received 18 calls from Rockland Coast Guard in respect to lost or overdue boats, or to try to locate persons in boats for emergency reasons.

Have designated two mooring sites and given written permission of same.

For any emergency or request, call 354-2380.

Respectfully submitted,

CUSHING VOLUNTEER FIRE DEPARTMENT

1972 was a very busy year for the men of the Department including the reorganization of and improving the fire department to serve you with greater efficiency.

Following are a few of the accomplishments for the year:

- A. Organizing and enrolling 34 men to the roster
- B. Installation of fire alarm
- C. Installation of Red Network
- D. Acceptance into the Knox County Mutual Aid Assn.
- E. Cement floor and renovations to the building
- F. Many drills and training sessions

and most important, fire loss was kept to a minimum.

The Department's budget committee has worked out a bare, essential budget for the coming year consisting of:

Red Network	\$ 450.00
Fire equipment and tools	2,528.60
Safety clothing and equipment	705.00
Operation of plant and supplies	<u>500.00</u>
	\$4,183.60

This does not cover cost of repair to Engine 10 (\$1,003.00) which has been paid with money raised over the years by the men of the Department.

In view of the fact that the town is growing rapidly with many new homes and families, I urge you to give this budget careful consideration. If fire protection doesn't grow with the town, someday we may find ourselves in a very awkward and expensive position.

I am pleased to report the pumper fund has grown to \$3,600.00 as of January 15, 1973.

Many thanks to all the citizens who have helped us throughout the year and especially the men of the Department for the many hours involved in making this a successful year.

Respectfully submitted,
WILLIAM H. YOUNG, Chief
Cushing Vol. Fire Dept.

KNOX REGIONAL PLANNING COMMISSION

In January, 1972 Governor Curtis designated the Knox Regional Planning Commission as one of eight planning districts in the State of Maine. This act of redistricting gave wider planning responsibilities and authority to the Regional Planning Commission. The area now covered by KRPC is known as the Eastern Mid-Coast District and is comprised of all Knox County and most of Waldo County; a total of thirty-two towns in all.

It is anticipated that this broadened coverage has and will benefit the towns individually and collectively in matters of regional importance, especially where federal funding will be channeled through the Regional Planning Commission.

During the past year, a specific effort has been made to acquaint the towns in both counties with the redistricting, and to discuss with them such projects as solid waste management, land use and shoreline zoning. This has been done by a series of meetings held in both counties and by several combined meetings with the Bath-Brunswick Area.

KRPC also participated with the State Planning Office in the Coastal Zone Plan. This is a comprehensive study of the Penobscot Bay Area, and is an attempt to identify some of the major land and water uses of the Maine Coast - present and future. It will be continued on into 1973. Reports on this endeavor were given at three meetings sponsored by KRPC during 1972. These also will continue; with advance press releases in order to inform as many citizens as possible. Also, published reports were made available for inspection in the KRPC office and for distribution to member towns.

Another effort which produced satisfying results in 1972 was the formation of a Citizen Participation Committee. This Committee was drawn from various population levels in the two counties and formed a working body of concerned citizens. Among the projects of the Citizen Participation Committee was the advancement of a feasibility study for a Vocational Center in this area. The Citizens Committee, through their action, made this study a reality.

With another year of progress in 1972 and a vigorous approach toward 1973 already begun, KRPC hopes for continued and improved cooperation with all thirty-two towns in the district. With this in mind, 1973 looks busy and encouraging for the commission. Knox Regional Planning Commission pledges its effort to inspire community leadership, to develop aggressive improvement progress and to maintain high standards of interest and resourcefulness.

PAULINE FAY, Executive Dir.

NOTICE TO TAXPAYERS

Before making an assessment, the assessors shall give reasonable notice in writing to all persons, liable to taxation in the municipality, to furnish to the assessors true and perfect lists of their polls and all their estates, not by law exempt from taxation, of which they were possessed on the 1st day of April of the same year.

The notice to residents may be given by posting notifications in some public place in the municipality or in such other way as the municipality directs.

The notice to non-resident owners may be by mail directed to the last known address of the taxpayer or by any other method that provides reasonable notice to the taxpayers.

If any person after such notice does not furnish such lists, he is thereby barred of his right to make application to the assessors or the county commissioners for any abatement of his taxes, unless he furnishes such list with his application and satisfies them that he was unable to furnish it at the time appointed.

The assessors or any of them may require the persons furnishing the list to make oath to its truth, which oath any of them may administer, and any of them may require him to answer in writing all proper inquiries as to the nature, situation and value of his property liable to be taxed in the state; and a refusal or neglect to answer such inquiries and subscribe the same, bars an appeal to the county commissioners, but such lists and answers shall not be conclusive upon the assessors. . .

Chapter 91 A, Sec. 34, R.S. 1954.

NOTICE TO VETERANS

Veterans or widows of veterans, who may be eligible for poll or property tax exemption, under our Maine Laws, should be familiar with the requirement, whereby, application for tax exemption must be made to assessors before April 1st of the year in which exemption is expected to begin.

The following is taken from Chapter 91A, Public Laws of 1955, section 10, sub-section 111G:

"Any person who desired to secure exemption under the provisions of this sub-section shall make written application and file written proof of entitlement on or before the first day of April, in the year in which exemption is first requested, with the assessors of the place in which the person resides; and the assessors shall thereafter grant such exemption to any person while he is so qualified or until they are notified of desire or reason for discontinuance."

Please return this form to the Board of Assessors by April 1st.

AUDITOR'S REPORT

January 29, 1973

The Board of Selectmen
Cushing, Maine

Dear Sirs,

I have examined the balance sheet of the Town of Cushing as of January 15, 1973, and the related statements of operations and surplus for the year then ended. My examination was made in accordance with generally accepted auditing standards.

In my opinion, the accompanying statements present fairly the financial position of the Town of Cushing as of January 15, 1973, and the results of operations for the year then ended.

Very truly yours,
RONALD J. RAYER

MID-COAST MENTAL HEALTH CLINIC

The purpose of this letter is to let you know that it is time again for the Mid-Coast Mental Health Clinic to make its request for your annual contribution to the financial support of a community service that is becoming more and more essential to the citizens of the mid-coastal area every year.

As you know the MCMHC has a staff of mental health professionals directed by William Barnum, M.D., Child Psychiatrist and Medical Director. This staff provides evaluation, diagnosis and treatment of a variety of emotional disturbances, nervous conditions, and mental illnesses. The services of the clinic are available to and are used by the citizens of Cushing from age 3 to 80 and from all levels of income. We are seeing a larger and larger percentage of emotionally disturbed children and adolescents.

In terms of actual numbers we have seen an average of 45 new cases (or families) per month over the past 12 months or a total of 540 new cases during the past year. These 540 cases have required over 4200 treatment sessions per year.

The total cost of these services averages about \$25 per hour or \$105,000 per year. The remainder of our annual budget, approximately \$85,000, is expended in educational services to the community, consultation services to the school and other community agencies, and administrative costs. Since patients from your town pay only what they can afford we must turn to other sources of funds to meet our expenses. Appropriations from the towns are a major source for meeting this deficit.

HARBORMASTER'S REPORT

Repetitive duties of the Harbormaster have been carried on as usual. Receiving calls and checking on overdue and missing boats, from the Coast Guard, maintenance of in-harbor ledge markers, and assisting boaters with aid and information.

The area of jurisdiction of the Harbormaster is as follows: All of the territorial salt water included on an Army Corps of Engineer's chart, (that may be seen upon request), encompassing the Town of Cushing, from the Thomaston Cushing town line in the upper Georges River, to a point South of Gay Island, all the way up to the East Friendship Bridge. This includes Cushing's only two Islands — Gay and Crotch.

Any dispute within these waters will not be arbitrated by the Coast Guard.

The licensed boat owner is the person responsible for any damage done by his boat to other people's property, through wake, collision etc. Accidents may be reported through this office and forwarded to the Bureau of Watercraft.

Respectfully submitted,
ROLAND B. STIMPSON
Harbormaster

MAINE MUNICIPAL ASSOCIATION

Membership in MMA entitles municipal officials in our member communities to inquiry service with our staff on problems of taxation, management, clerk's duties, State and Federal revenue sharing, welfare guidelines, staggered excise tax collection, personnel/labor relations, school reapportionment and funding and a host of other problems facing Maine towns and cities. Member officials receive the MAINE TOWNSMAN, MMA's monthly magazine, which contains articles for clerks, assessors, tax collectors, treasurers, etc. Finally, our legislative program, research service and group insurance programs (health/major medical; income protection; public officials liability and workmen's compensation) round out our services to members.

JOHN L. SALISBURY
Executive Director

CUSHING FIRE DEPARTMENT

1. In the past year, we have continued to grow, by training and obtaining new equipment. A Special Town Meeting voted to purchase a new 750 Bean Pumper. This replaces the 1938 Mack. Through Civil Defense, we have acquired a surplus 1954, all wheel drive vehicle. To this we are adding a 500 gallon front end pump and a 1700 gallon tank. A 50 watt base station has been installed at the fire station for better communication and greater efficiency.

2. Our fire fighters have undergone two training schools: Structural Pre-planning and State Forestry School. Many other outdoor training sessions have been held. As all of the training and work is strictly unpaid and voluntary, it should be emphasized that it is your support and thanks that keep morale at a point where we strive to obtain the most efficient service possible to the Town of Cushing.

3. Feel free to call for any emergency. If we don't have the necessary facilities to provide such a service, we will take all necessary measures to obtain it.

Please remember: It is the first few precious minutes that make the difference. Call first (354-6691) then do what you can until we arrive.

Respectfully submitted,
WILLIAM YOUNG, Chief

Cushing Volunteer Fire Dept.

EASTERN MID-COAST REGIONAL PLANNING COMMISSION

Early in 1973, the Eastern Mid-Coast Regional Planning Commission began a strong program of assistance to member communities on their shoreline and other zoning problems, as well as assisting them in mapping and drawing up comprehensive plans to fulfill State regulations. During the year, the Planning Commission developed and distributed to member communities 5 model zoning ordinances with a final and officially adopted "State of Maine Guidelines for Municipal Shoreland Zoning Ordinance" sent out in late December.

50% of member towns received specific assistance from the Commission staff. This was done through meetings with town managers, planning boards, and selectmen. All towns in the district received informational and assistance materials from the Commission. Staff members conducted and/or attended well over 100 meetings with towns, local, state, and federal agencies and special committees - all geared to educating and assisting area municipalities with planning projects and problems.

In January of 1973, the Regional Planning Commission was designated as the regional review clearinghouse for municipalities and other government bodies applying for federal and/or state funds for local projects such as recreation, social services, transportation, waste water treatment plants, flood control projects, vocational education, regional medical programs, solid waste research grants, and numerous other programs listed in the Commission office.

Early in 1973 a solid waste management feasibility study was undertaken. On dump-site surveys were conducted at each season of the year. Data was compiled on types and volume of waste generated at each dump site. A full report on the study will be available early in 1974.

Inter-municipal cooperation is being fostered by the Commission through the formation of a Community Planning Team to be composed of the planning commission staff and other governmental agencies. This team will provide services to the towns through their

particular field of expertise. The Team will also provide forums for municipal officers in order that they may discuss their mutual problems.

With another year of progress in 1973 and a vigorous approach toward 1974 already begun, the EMCRPC hopes for continued and improved cooperation with all 32 towns in the district. With this in mind, 1974 looks busy and encouraging for the Commission. The Eastern Mid-Coast Regional Planning Commission pledges its effort to inspire community leadership, to develop aggressive improvement progress, and to maintain high standards of interest and resourcefulness.

EARLE D. PAXMAN, Chairman
PAULINE FAY, Exec. Director

MID-COAST HOME HEALTH AGENCY

The Mid-Coast Home Health Agency continues to offer its services to citizens of Knox, Lincoln and Waldo counties. A total of 159 nursing and/or physical therapy visits were made in your town for a variety of conditions requiring health care. Referrals were received from families, homemakers, physicians, selectmen, hospitals both in the state and out of state, Department of Health and Welfare and individuals. All age groups are served. No one is denied care due to a lack of finances. The staff includes four physical therapists, under contract, three full time and six part time nurses. A full time secretary aids individuals who telephone the office seeking information and help by referral to the appropriate source.

The Mid-Coast Home Health Agency appreciates the cooperation and continued support of the community.

JOHAN BROUWER, M.D.
President-Medical Director

NOTICE TO TAXPAYERS

Before making an assessment, the assessors shall give reasonable notice in writing to all persons, liable to taxation in the municipality, to furnish to the assessors true and perfect lists of their polls and all their estates, not by law exempt from taxation, of which they were possessed on the 1st day of April of the same year.

The notice to residents may be given by posting notifications in some public place in the municipality or in such other way as the municipality directs.

The notice to non-resident owners may be by mail directed to the last known address of the taxpayer or by any other method that provides reasonable notice to the taxpayers.

If any person after such notice does not furnish such lists, he is thereby barred of his right to make application to the assessors or the county commissioners for any abatement of his taxes, unless he furnishes such list with his application and satisfies them that he was unable to furnish it at the time appointed.

The assessors or any of them may require the persons furnishing the list to make oath to its truth, which oath any of them may administer, and any of them may require him to answer in writing all proper inquiries as to the nature, situation and value of his property liable to be taxed in the state; and a refusal or neglect to answer such inquiries and subscribe the same, bars an appeal to the county commissioners, but such lists and answers shall not be conclusive upon the assessors. . .

Chapter 91 A, Sec. 34, R.S. 1954.

NOTICE TO VETERANS

Veterans or widows of veterans, who may be eligible for poll or property tax exemption, under our Maine Laws, should be familiar with the requirement, whereby, application for tax exemption must be made to assessors before April 1st of the year in which exemption is expected to begin.

The following is taken from Chapter 91A, Public Laws of 1955, section 10, sub-section 111G:

“Any person who desired to secure exemption under the provisions of this sub-section shall make written application and file written proof of entitlement on or before the first day of April, in the year in which exemption is first requested, with the assessors of the place in which the person resides; and the assessors shall thereafter grant such exemption to any person while he is so qualified or until they are notified of desire or reason for discontinuance.”

AUDITOR'S REPORT

February 20, 1974

The Board of Selectmen
Cushing, Maine

Dear Sirs,

I have examined the balance sheet of the Town of Cushing as of January 15, 1974, and the related statements of operations and surplus for the year then ended. My examination was made in accordance with generally accepted auditing standards.

In my opinion, the accompanying statements present fairly the financial position of the Town of Cushing as of January 15, 1974, and the results of operations for the year then ended.

Very truly yours,
RONALD J. RAYER
Certified Public Accountant

Fire Chief's Report

Dollar loss due to fire for 1974 was very minimal, also other services rendered by the Department show additional savings to non-fire related property.

Many goals have been accomplished in 1974:

- A. Delivery of 750 Bean Pumper
- B. 1600-gallon tanker has been made operational
- C. Station annex for tanker completed.

Our primary goal for 1975 will be completion of requirements to make us available for qualification for a new insurance rating.

For making these achievements possible, I wish to extend my thanks to the men of the Department and all of the citizens for the support given me.

Plumbing Inspector's Report

State law now requires that each town appoint a plumbing inspector. He must have passed an examination and have been certified by the state. Formerly a state inspector served towns which had none; and Hartwell Davis of Friendship served Cushing for a time in 1973 and 1974 by appointment by the Selectmen. Following his resignation on April 1, I was appointed.

A permit must be secured from the local plumbing inspector before the installation of piping for domestic water supply or for any system of sewage disposal, including septic tanks, leaching fields, holding tanks, et cetera. No permit is required for repair of leaks or replacement of existing fixtures, except that a permit is required for the installation or replacement of a water heater.

If you hire a plumber to do your work, he will get the permit; but if you do the work yourself, you must secure the permit. You are allowed to do the plumbing in your home. In either case, the local plumbing inspector inspects the completed plumbing work.

To prevent inconvenience and expense, you should make sure that you understand the requirements before undertaking any plumbing project. Many changes in the plumbing code became effective last July 1. Probably the biggest changes were in the regulations regarding private sewage disposal systems. The percolation test, made to measure the ability of the soil to absorb water, was formerly used to determine the type and size of a sewage disposal system. This test has now been discarded; and an on-site examination of the soil by a soil scientist, geologist, engineer, or other trained person is required. He specifies the size and type of system required.

In many places in Cushing, especially along the shore, no subsurface sewage disposal system of any type will be permitted. In other places the installation will be very costly because of the amount of fill required.

If you plan to build a house, buy a lot, or set a mobile home, you should have a soil test of the site before you spend any money or sign any agreements.

Harbormaster's Report

The past year this office has been engaged in the usual duties of locating mooring sites for individuals upon request, arbitration of any disputes over moorings, maintaining in-harbor ledge markers and signs, and policing watercraft traffic and speed.

The Town of Cushing has a Marine Ordinance passed by the voters at Town Meeting in 1969, which is informative and available through this office.

I ask your continuing help in the areas of controlling speed and pollution.

Mid-Coast Activities Center

Since the Mid-Coast Activities Center supplies an important service to your town, you should be informed of its financial condition and the need to raise additional funds locally.

Our agency is located in a private dwelling on Free Street in Camden. This house is a haven for the mentally retarded adults of Knox, Lincoln and Waldo Counties. We have a year-round day-time program, which offers work training in a sheltered workshop, self care, normalization, handicrafts and a chance to develop a sense of self worth, which can only come from belonging to society. Before the Center was created, most of these people simply languished in their homes.

Our annual budget to serve the present twenty clients is a modest \$35,000. Three quarters of these funds are provided by the State Department of Health and Welfare under Title VI. According to the contract, we must obtain the remaining one quarter from other sources. A good portion of this "seed money" has been raised by our own efforts, but there is a limit on our ability to do this, and we are reluctant to give all our attention to fund raising at the expense of the program. We think the communities we serve should be willing to contribute to our support.

Enrollment at the Center presently includes 2 clients from Cushing. This number fluctuates from time to time.

Operation SEA-ME

Central Senior Citizens Association is requesting financial assistance during the 1975 budget year from all municipalities whose elderly are served by our programs, including Operation SEA-ME. Those cities and towns who supported the Association last year should be pleased to know that without their support, we would not have been able to provide as many necessary services to their older citizens. Your donations have allowed many older people to remain independent in their own homes.

We presently have several programs available in the Cushing area for senior citizens. We are supporting a Nutrition Program for the elderly serving daily meals at the Methodist Conference Home in Rockland. We have a mini-bus program available to transport your older citizens to the meals program and other necessary services. Our Retired Senior Volunteer Program provides numerous volunteer hours for Cushing's community services. A Legal Service's program has recently begun which will offer assistance and advice to older people. A Health Screening program will bring medical services to a segment of the population most in need of health care. Homemakers and visiting nurses enable many older citizens to remain in their homes longer. All of our programs are coordinated by outreach workers who approach the more isolated older people to introduce them to our available services.

Eastern Mid-Coast Regional Planning Commission

The program began in 1973 by the Eastern Mid-Coast Regional Planning Commission to assist member communities on shoreline and other zoning problems as well as in mapping and drawing up comprehensive plans to fulfill State regulations has developed substantially during 1974. The officially adopted "State of Maine Guidelines for Municipal Shoreland Zoning Ordinances" were distributed to the communities and have proven an effective tool in fulfilling statutory requirements.

75% of member towns received specific assistance from the Commission staff during this past year. A series of meetings with Town Managers, Planning Boards, Selectmen, and Conservation Commissions proved very successful.

In addition to regular monthly meetings of the Commission, a great deal of help was given to individual communities through contact with planning board chairmen and municipal officers from the towns in the area. Staff members conducted and/or attended well over 100 meetings with towns, local, state, and federal agencies and specific communities in order to become more informed with planning projects and problems faced by the municipalities.

During this past year, a heavy schedule of Department of Environmental Protection and A-95 Clearinghouse Reviews were handled by the Commission. These included applications for federal and state funds for local projects such as sewage treatment plants, regional medical programs, municipal equipment (such as fire trucks, etc.), site location, subdivision, waste discharge licenses, schools, marine parks and other recreational facilities. The Eastern Mid-Coast Regional Planning Commission has been designated by the State as the official clearinghouse for municipalities and other government bodies, and all funding requests must be channeled through the regional planning commission.

With increasing interest and awareness on the part of the municipalities as to the requirements for solid waste management, a series of meetings are scheduled early this year through-

out the area. These will deal with the Statutory requirements for solid waste management in order to meet the July 15, 1975 deadline imposed by the State.

The Community Planning Team has initiated active committees to assist towns with their individual planning problems. The Team will also provide forums for municipal officers in order that they may discuss their mutual problems.

With an encouraging year of progress in 1974, and a vigorous approach to 1975 already begun, the Eastern Mid-Coast Regional Planning Commission hopes to continue to improve cooperation with all 32 towns in the district. The Board of Directors and the Commission staff wish to take this opportunity to thank all member towns for their cooperation in the work that has been done this year, and the Eastern Mid-Coast Regional Planning Commission pledges its effort to inspire community leadership, to develop aggressive improvement progress, and to maintain high standards of interest and resourcefulness during the coming year.

EARLE D. PAXMAN, Chairman
PAULINE FAY, Executive Director

Notice to Taxpayers

Before making an assessment, the assessors shall give reasonable notice in writing to all persons, liable to taxation in the municipality, to furnish to the assessors true and perfect lists of their polls and all their estates, not by law exempt from taxation, of which they were possessed on the 1st day of April of the same year.

The notice to residents may be given by posting notifications in some public place in the municipality or in such other way as the municipality directs.

The notice to non-resident owners may be by mail directed to the last known address of the taxpayer or by any other method that provides reasonable notice to the taxpayers.

If any person after such notice does not furnish such lists, he is thereby barred of his right to make application to the assessors or the county commissioners for any abatement of his taxes, unless he furnishes such list with his application and satisfies them that he was unable to furnish it at the time appointed.

The assessors or any of them may require the persons furnishing the list to make oath to its truth, which oath any of them may administer, and any of them may require him to answer in writing all proper inquiries as to the nature, situation and value of his property liable to be taxed in the state; and a refusal or neglect to answer such inquiries and subscribe the same, bars an appeal to the county commissioners, but such lists and answers shall not be conclusive upon the assessors . . .

Chapter 91 A, Sec. 34, R. S. 1954.

NOTICE TO VETERANS

Veterans or widows of veterans who may be eligible for poll or property tax exemption, under our Maine Laws, should be familiar with the requirement, whereby, application for tax exemption must be made to assessors before April 1st of the year in which exemption is expected to begin.

The following is taken from Chapter 91A, Public Laws of 1955, section 10, sub-section 111G:

“Any person who desired to secure exemption under the provisions of this sub-section shall make written application and

file written proof to entitlement on or before the first day of April, in the year in which exemption is first requested, with the assessors of the place in which the person resides; and the assessors shall thereafter grant such exemption to any person while he is so qualified or until they are notified of desire or reason for discontinuance.”

The Board of Selectmen
Cushing, Maine

Dear Sirs,

I have examined the balance sheet of the Town of Cushing as of January 15th, 1975, and the related statements of operations and surplus for the year then ended. My examination was made in accordance with generally accepted auditing standards.

In my opinion, the accompanying statements present fairly the financial position of the Town of Cushing as of January 15th, 1975, and the results of operations for the year then ended.

It was noted, however, that the Town expended \$20,000 from the Federal Revenue Sharing Fund for the purchase of a Fire Pumper, without a specific appropriation voted by the Townspeople; and the Town is accordingly not in compliance with the regulations of the O.R.S. It is understood that the Town will cure this situation at the next annual Town Meeting.

Very truly yours,
RONALD J. RAYER

DOGS REQUIRING LICENSE

Owners or keepers of dogs six months old or over as of January 1, or at such time such dog becomes six months old must procure a license annually. Any person becoming the owner or keeper of a dog after the first day of January not duly licensed as herein required, shall within ten days after he becomes the owner or keeper of said dog, cause said dog to be described and licensed. No city or town clerk shall issue a license for any dog until the applicant has filed with such clerk proof that such dog has been immunized against rabies in accordance with rules and regulations promulgated by the Commissioner of Health and Welfare.

CUSHING VOLUNTEER FIRE DEPARTMENT

The past year, "1975", has been the busiest and perhaps the most gratifying year on record for the department.

An all-time high of 32 responses were made, bringing our property value per response total to \$289,000.00. Property dollar loss for the year was \$30,450.00. These figures are tabulated for structural fires only. Other responses such as outdoor fires, smoke investigations and other assistance calls have also contributed to keeping the dollar loss to a minimum.

This fine record can only be attributed to our many training sessions, quick responses and our program of updating our tools and equipment.

As of this writing, I have not received official verification of our insurance rating. The I.S.O. inspector has assured us he has highly recommended us to his office. Hopefully this will be taken care of before town meeting.

Many fund raising events were undertaken again this past year to supplement the town account. It would not be possible to provide the service we do, but for your participation in these activities.

As we do have a manpower shortage during working hours of the day, I would like to invite any resident that may be available and willing to learn, to obtain an application for membership.

HARBORMASTER'S REPORT

Mooring permits were issued and sites marked for two new moorings for non-resident property owners of this town at Pleasant Point Harbor this year. The requests for new mooring sites are increasing yearly to the point where available room is getting scarce.

I have erected two new signs at each end of the harbor. They are colored and displayed as per the directions of the Maine Bureau of Watercraft and Registration, and the word SLOW is printed across the middle on an orange disc. In the Town of Cushing's Marine Ordinance, passed in 1969, Sec. 4, Paragraph 1-4, it states the proper legal use of any watercraft within the territorial waters of the Town of Cushing and the subsequent penalties for misuse. Copies of this Ordinance are available from this office at Pleasant Point, or call 354-2380.

Respectfully submitted,
ROLAND STIMPSON
Harbormaster

CONSERVATION COMMISSION

By action of Town Warrant Article 28 at the Town Meeting in March 1975 a Conservation Commission was appointed consisting of Diane Smith, Ann Guild, Sydney Dobbs, Peter Karonis and Dudley Rockwell. The latter was selected as Chairman and Ann Guild, Secretary.

During the short time of its existence the Commission persuaded the State to regrade the shoulder of the road near Fales Store, purchased materials, painted and re-erected all new Town directional signs. We have been working closely with the Time & Tide Resource Conservation & Development Project (RC&D) office in Waldoboro and have joined them in several informative meetings and field trips pertaining to land conservation in Knox County and elsewhere. Cushing is also being represented by members of the Commission at meetings of the "Friends of the St. George River" which is interested in the preservation of the River in its natural state for boating and fishing interests.

Members of the Commission will be glad to try and answer questions or have suggestions from the Town in regard to conservation matters.

Respectfully submitted,
ANN GUILD
Secretary

EASTERN MID-COAST REGIONAL PLANNING COMMISSION

The municipality of Cushing is one of 32 area towns in the Eastern Mid-Coast Regional Planning Commission's Planning and Development District.

During the past year, each community received the assistance of EMCRPC professional planners on matters of subdivision, comprehensive plans, wetlands permits, town-wide and other zoning problems, building and housing codes, and, recently, the Federal Flood Insurance Program.

All Department of Environmental Protection and A-95 Reviews for the municipalities were processed through the Regional Planning Office. These included applications for federal and state funds for local projects such as sewage treatment plants, regional medical programs, site location, waste discharge licenses, and recreational facilities. The Eastern Mid-Coast Regional Planning Commission has been designated by the State as the official clearinghouse for municipalities and other government bodies, and all funding requests must be channeled through the Commission.

It is the intention of the eastern Mid-Coast Regional Planning Commission to continue to work with the towns on an individual basis on whatever planning problems may exist, and to render even greater service, as we anticipate the addition of an engineer to our staff.

With an encouraging year of progress in 1975, and a vigorous approach to 1976 already begun, the Commission hopes for even greater cooperation with all 32 towns in the district. The Board of Directors and the Commission staff wish to take this opportunity to thank all member towns for their part in the work that has been done this year, and the Commission pledges its effort to inspire community leadership, to develop aggressive improvement progress, and to maintain high standards of interest and resourcefulness during the coming year.

KENNETH E. BAILEY, Chairman
PAULINE FAY, Executive Director

CENTRAL SENIOR CITIZENS ASSOCIATION, INC.

December 3, 1975

First Selectman
Town Office
Cushing, Maine

Dear First Selectman:

The Central Senior Citizens Association is requesting financial support during the 1976 budget year from municipalities whose elderly are served by our programs. Most towns have generously supported our requests in the past, allowing us to provide essential services that would not otherwise be available to their older residents.

Central Senior Citizens sponsors "Operation SEA-ME", which provides a variety of services to older residents of your town. Service programs include the SEA-ME buses, a hot meals program, Retired Senior Volunteer, handymen, homemakers, visiting nurses, and others.

To obtain Federal and State Social Service funds necessary to maintain these needed programs we must raise local cash from the towns and cities of our service area. We, therefore, respectfully request on behalf of the older residents of Cushing that the sum of \$176. be appropriated to help us to maintain these programs. This amount is based on the town's proportionate share calculated on the town's elderly population. Despite rising costs, this is the same amount that we requested last year; however, we are confident that we can provide the same, or greater, services in 1976.

We appreciate your consideration of this request and will be happy to provide any information which you feel would help the residents of Cushing make a decision on this request.

Sincerely,
LAURENCE P. BAGLEY
President

COASTAL WORKSHOP, INC.

ORGANIZATION

The Coastal Workshop is a private non-profit organization established to provide a day program for mentally and physically handicapped adults. Because the working environment is controlled and protected to meet the needs of handicapped people, the Coastal Workshop is referred to as a "Sheltered Workshop." Policy and program operation is determined by a nine-member executive Board of Directors. The members of the Board are all private citizens of local communities.

OBJECTIVES

The philosophy of the Coastal Workshop is to provide the handicapped adult with the opportunity to perform at his own level of achievement, through the means of modified or actual work experience, by the use of production skills, group skills, individual skills and social adjustment in a work setting. It is hoped that each individual will acquire adequate skills and social adjustments throughout his development in the program to function in a limited or regular work setting after the period of training or to become a self-sufficient individual in a permanent sheltered setting. It is desired, through the process of development in a work setting, that each individual worker will respect punctuality, reliability and responsibility, and feel pride in a job well done.

FUNDING

The Coastal Workshop receives a contract through the Social Security Act-Title XX. This contract is between the Coastal Workshop and the State of Maine, Department of Health and Welfare, Bureau of Human Services. The contract finances 75% of the operating budget.

The present operating budget for a twelve-month period is approximately \$38,000. The additional 25% of the budget must be raised in the local communities through various fund raising events.

GENERAL INFORMATION

The Coastal Workshop is located at 11 Free Street in Camden. The building is the property of the Congregational Church of Camden.

Any handicapped adult who is not addicted to a drug of any kind, who is not actively harmful to himself or others and who possesses a genuine desire to attend the program is eligible.

At present there are approximately 22 people attending the workshop program.

The Coastal Workshop is open Monday through Friday from 8:30 AM to 2:30 PM. The program operates twelve months a year.

The day-to-day staff of the Coastal Workshop consists of a Director and two Workshop Supervisors.

The Workshop depends a great deal on volunteers to assist in the day-to-day operation of the program. Any person with an interest in providing a more productive and useful life for handicapped citizens is a welcomed volunteer.

COMMUNITY ALCOHOL SERVICES

CURRENT PROGRESS REPORT

For the last 9 month period 1298 hours of client and family counseling were conducted, and 173 one-hour units of consultation and treatment planning were conducted with other Alcohol programs, community service agencies, employers, probation-parole personnel, etc., all of which were directly client family related. 503 2-hour group counseling units were provided as well.

The client-family profile for the quarter indicates positive movement in 67% of the families, i.e. 45% sober, and 22% increased sobriety since working with our program. 36% improved interpersonal relationships, 22% improved physical health, 15% improved their employment situation, 7% received job training and/or further education. There are currently 103 families receiving services.

Program efforts in education and community development have lead to grant requests from NIAAA and LEAA for a Youth Education and Prevention program. Pilot projects were conducted co-operatively with the Mid-Coast Rehabilitation Center, providing factual information to local youth in settings where individual values about alcohol were shared and clarified. A total of 23 presentations were made, reaching 418 persons in the last 6 months.

In October the Driver Rehabilitation course for those convicted of operation under the influence became mandatory for return of license. Community Alcohol Services staff will, beginning 1976, teach this course in Rockland and Belfast. Referral to treatment for those identified with alcohol abuse problems will insure earlier intervention for offenders. Community Alcohol Services will also use this opportunity to establish further positive working relationships with law enforcement personnel and lawyers in the area, providing them with information concerning the purposes of the course and the need for intercession and referral to treatment.

PENOBSCOT BAY MEDICAL CENTER

January 27, 1976

The mid-coast area's first regional health facility opened on October 5, 1975 at Penobscot Bay Medical Center. It combines such services as acute hospital care, psychiatric care, extensive outpatient and emergency departments, the Ambulatory Care Unit and Family Planning Services.

Of interest to the residents of Cushing will be the following figures for the period October 5 - December 31.

8 residents were admitted for treatment.

4 residents were enrolled in the Ambulatory Care Program.

2 residents have used the Family Planning Services.

9 residents were employed by PBMC.

The staff and Board of Trustees of Penobscot Bay Medical Center welcome any constructive criticism which will assist them in rendering the finest level of medical care to residents of the area.

NOTICE TO TAXPAYERS

Before making an assessment, the assessors shall give reasonable notice in writing to all persons, liable to taxation in the municipality, to furnish to the assessors true and perfect lists of their polls and all their estates, not by law exempt from taxation, of which they were possessed on the 1st day of April of the same year.

The notice to residents may be given by posting notifications in some public place in the municipality or in such other way as the municipality directs.

The notice to non-resident owners may be by mail directed to the last known address of the taxpayer or by any other method that provides reasonable notice to the taxpayers.

If any person after such notice does not furnish such lists, he is thereby barred of his right to make application to the assessors or the county commissioners for any abatement of his taxes, unless he furnishes such list with his application and satisfies them that he was unable to furnish it at the time appointed.

The assessors or any of them may require the persons furnishing the list to make oath to its truth, which oath any of them may administer, and any of them may require him to answer in writing all proper inquiries as to the nature, situation and value of his property liable to be taxed in the state; and a refusal or neglect to answer such inquiries and subscribe the same, bars an appeal to the county commissioners, but such lists and answers shall not be conclusive upon the assessors. . .

Chapter 91 A, Sec. 34, R.S. 1954.

NOTICE TO VETERANS

Veterans or widows of veterans, who may be eligible for poll or property tax exemption, under our Maine Laws, should be familiar with the requirement, whereby, application for tax exemption must be made to assessors before April 1st of the year in which exemption is expected to begin.

The following is taken from Chapter 91A, Public Laws of 1955, section 10, sub-section 111G:

“Any person who desired to secure exemption under the provisions of this sub-section shall make written application and file written proof of entitlement on or before the first day of April, in the year in which exemption is first requested, with the assessors of the place in which the person resides; and the assessors shall thereafter grant such exemption to any person while he is so qualified or until they are notified of desire or reason for discontinuance.”

Please return this form to the Board of Assessors by April 1st.

AUDITOR'S REPORT

February 16, 1976

The Board of Selectmen
Cushing, Maine

Dear Sirs,

I have examined the balance sheet of the Town of Cushing as of January 15, 1976, and the related statements of operations and surplus for the year then ended. My examination was made in accordance with generally accepted auditing standards.

In my opinion, the accompanying statements present fairly the financial position of the Town as of January 15, 1976, and the results of operations for the year then ended.

Very truly yours,
RONALD J. RAYER
Certified Public Accountant
